

Research Activity Cell

Research Activity Cell of the Department of Statistics was formed in November, 2016. It accentuates to enhance the research quality of the department's research scholars for making their eminent outcomes. It comes up with rostrum to all research scholars of the department where they can discuss their thoughts regarding new aspect of research. The Cell calls one or two meetings in a month regularly for taking into account research scholars' grievances and schedules presentations/ progress report by research scholars of the department.

These are some initiative taken by Cell in the department:

1. Facilitation of research sbased interaction with other Department or Universities.
2. Industry experts and academician to be invited for talks/lectures.
